

- Tilt Indicator is a single-use, low-cost tip indicator that monitors goods that must remain upright.
- Provides indisputable evidence of tipping in excess of 80°.
- When used with a companion label, a Tilt Indicator reduces the incidence of damage by increasing the carrier's awareness that the package is being monitored.
- Acts as a visual deterrent to mishandling, while providing an immediate indication that tipping has occurred.
- Will not falsely trigger due to vibration or conventional handling conditions.
- Can help identify trouble spots in the transportation chain.
- Simple activation remove adhesive liner and adhere to package.
